THE PURE DRIVING EXPERIENCE

## MANUFACTURER

Innovative, thought-leading, and future-focused, Shanghai Automotive Industry Corporation (SAIC) is the largest automotive group in China, and is the name behind the MAXUS (formerly LDV) brand.

Based in Shanghai, SAIC produces almost seven million vehicles each year for both domestic and international markets and is a Fortune Global 500 listed company with almost 100,000 employees.

With a long history tracing back to the 1940s, SAIC saw real growth from the mid-1980s onwards following a number of partnerships that allowed it to produce competitive vehicles by utilising the latest technology.

The company has a number of well-known brands within its portfolio including, since 2010, the acclaimed MAXUS range of LCVs. SAIC has invested more than €2 billion in this brand, with a strong focus on safety, innovation and the introduction of new products to the range, including a suite of EVs that are already setting the standard for the future of eco-fuelled commercial motoring.

Since acquiring LDV, these LCVs were manufactured under the MAXUS moniker for the home market in China in addition to selected left hand drive markets in Europe such as Spain, Belgium and The Netherlands. In April 2020, LDV rebranded as MAXUS across right hand drive Europe, coinciding with the launch of the all-new eDELIVER 9 and the newest EV in the brand's stable, the eDELIVER 3, thereby consolidating the brand's presence across Europe, China and beyond.

With an even brighter future ahead, SAIC's key areas of development are electrification, car sharing, connectivity and globalisation. Today, there are eight major automotive groups within SAIC, including SAIC MAXUS.

SAIC's vision is to continue to build an innovative, globally-recognised company that pioneers the future of the automotive industry, actively promoting new energy vehicles.

## DISTRIBUTOR

You are the expert in your field but when it comes to automotive expertise, The Harris Group is here to guide you through your search for the right vehicle for your business. One of the longest-established automotive distribution and assembly companies in Ireland and the UK, The Harris Group was founded in 1961 and is an industry leader in the commercial and fleet sectors.

The privately-owned company is best known for its commercial vehicle brands that include Hino, Sinotruk, Higer, Isuzu, AOS and Crusader. In 2016, The Harris Group acquired the distribution rights to MAXUS (formerly LDV) across right hand drive Europe and the range of LCVs, which includes market-leading electric vehicles, has taken the market by storm.

The Harris Group has developed an unrivalled reputation for service excellence in the UK and Ireland, which comes from almost 60 years of experience. Harris is the distributor for the MAXUS range of vehicles in the UK, Ireland, Channel Islands, Isle of Man, Malta and Cyprus.

## OUR NETWORK

With a strong dealer network of dedicated and experienced commercial vehicle specialists, we offer the highest standards of expertise whether you are looking to buy one van or an entire fleet.

Following a high-profile relaunch of the LDV brand in 2016, Harris is continuing to build its network across all right hand drive markets in Europe.

Today, the Group represents the MAXUS range in a total of seven territories, including the UK, Ireland, Channel Islands, Isle of Man, Malta and Cyprus, with the company focussed on a big drive to expand the dealer network throughout the UK.

Every dealer within the company's network operates with a strong focus on after-sales activities, thereby ensuring complete customer satisfaction.

Check out [www.saicmaxus.co.uk](http://www.saicmaxus.co.uk) to find your local dealer.

## HIGH POWER LOW ENERGY MOTOR

## ELECTRIC POWERTRAIN

### HIGH POWER LOW ENERGY MOTOR

The maximum power is 90kW; the peak torque is 255N·m; the acceleration time of 0-100km/h is 11s.

### PROVIDE DC + AC DUAL CHARGING MODE

DC mode: 45 minutes can charge 80% of electricity, 80 minutes can be charged to 100%.

**MAXUS**  
eDELIVER 3

35kWh BATTERY

**CATL**

52.5kWh BATTERY

SAIC are the leaders in the technical revolution, continually leading the way in the development of new technology and solutions for the automotive industry.

A part of that revolution is being the market leaders in battery technology, we have developed a number of battery options for the eDELIVER 3, by using various battery cooling methods, which allows us to reduce charging time (DC 45mins (5%-80%) AC 5hrs), extend battery life and increase the operating range.

The eDeliver 3 comes with a 90KW /255Nm motor, AC/DC charging options and a choice of 35Kw or 52.5Kw battery configurations.

**MAXUS**  
eDELIVER 3

## STORAGE SYSTEM

The new Maxus eDELIVER range of vehicles offer all the storage you need to keep your cab area neat & organised. There is a place for everything, in addition to the glovebox there are storage areas in the door pockets to keep things close to hand. Larger items can be stored under the seats in both the eDELIVER 3 & the eDELIVER 9. In the eDELIVER 9 there is the added bonus of a folding seatback which reveals two further cup-holders and a handy tablet holder.

- USB port and mini jack port<sup>1</sup> (driver and passenger)
- Storage space under the bench seat
- Storage compartments in the doors
- Cup holder (driver and passenger)
- 12 V power socket

## The Infotainment System takes the MAXUS eDELIVER 3 driving experience from ordinary to extraordinary

MAXUS eDELIVER 3 model offers a pure driving experience that any van driver will appreciate. Professional drivers have busy and often long days, and this is why the eDELIVER 3 cabin area offers all the comfort and practicality of a mobile office space.

Packed with cutting edge technology and practical features, you'll have everything you need and all operated at the touch of a button via touch screen. In addition to the radio functions, the high spec includes USB ports for both the driver and passenger, so you can always remain connected wheth-

er by laptop or by simply hooking up your smartphone to the system. A ready-to-go mobile office space. Use the link to access all your apps and emails.

## MULTI-FUNCTION STEERING WHEEL

### MULTI FUNCTION STEERING WHEEL

Make use of important features using the multi-function steering wheel whilst keeping full control of your vehicle. Answer and hang-up your mobile phone, control the volume of the stereo and manage the cruise control functions whilst keeping both hands on the steering wheel.

### CRUISE CONTROL

Cruise Control allows you to set the cruising speed and keep it constant.

## DRIVERS' ENVIRONMENT COMFORT AND SAFETY

### COOL, CALM AND IN CONTROL

Stay cool at all times with the eDELIVER smart air conditioning system with our ever-changing climate, the importance of a good air conditioning system was always going to be a factor when it came to designing this vehicle. The eDELIVER models include manual air conditioning for your comfort and the comfort of your passengers. The variable control of the air conditioning system ensures that the temperature can be adjusted easily and quickly. So you can always rely on a pleasant work environment, whatever the weather.

Unique design, aluminium monocoque frame, composite plastic front panels for maximum payload and durability.

## COMPREHENSIVE SAFETY STANDARDS

At MAXUS, safety is paramount and the eDELIVER 3 meets all European commercial vehicle collision design standards.

Advanced driver assistance system as standard with the latest generation of ESP Electronic Stability Program and delivers comfort and peace of mind in any situation.

• 7 Inch Touch Screen

• Daytime Running Lamp

• Driver and Passenger Airbag\*

• Driver-S/Belt Reminder

• Eco Drive Mode Setting

• ESC (ESP)

• Hand Brake

• Multifunction Steering Wheel

• Visual Reversing Camera

• Rear Proximity Sensor

• Tyre Pressure Monitoring System

**MAXUS**  
**eDELIVER 9**

**BSD + LCA-BASE VERSION**  
The Lane Departure Warning System can determine whether the van is changing lane, even in low-visibility weather conditions. In the event of danger, an acoustic and visual signal alerts the driver of the potential impending threat.

**HIGH BEAM RECOGNITION**  
This manages the activation and deactivation of the main beam headlights, increasing visibility and reducing the risk of dazzling when driving at night, automatically recognising vehicles driving in the opposite direction.

**ELECTRIC HEATING SIDE MIRROR**  
Heated electrically operated door mirrors ensure great rear visibility in all weather conditions.

**STRUCTURE**  
9.2m laser welding, the longest in the industry. 54% high strength steel and PHS. Accumulated 2 million kilometres of whole vehicle full environment test verification
